Rylee's Story

On July 30, 2011 the Kiter family celebrated the addition of a new member! Rylee, three-years-old, was adopted into their family. Rylee happily announced to the judge and anyone who would listen that this was her adoption day and she was becoming a Kiter! This happy day was the end of a two year journey for the family.

The Kiters have two sons and wanted to have a little girl in their family too. A friend told them about a little girl in foster care in New Jersey. They met her and fell in love. They came to Grandfather Home to be trained as foster parents and jumped through all the hoops to eventually have Rylee placed in their home. In that loving environment she grew from a quiet, insecure child to a joyful, active, confident little girl.

Rylee's long term placement was in question for a long time. The Kiters worked with her biological mother to see if a reunification would be possible. They willingly traveled to court dates in New Jersey. They were hoping and praying that Rylee would become a member of their family forever. Rylee Olivia Kiter is now at last, at home!

Your contributions help provide excellent and needed services above and beyond the basics that limited public funds provide. Thank you!
