The mission of Grandfather Home for Children is to provide care and healing for children who have been abused or neglected. We seek whenever possible to reunite children with their biological families. When this is not possible we seek a safe, loving, permanent placement for these children. We offer a full continuum of care including: residential and educational programs on our Banner Elk Campus, foster family ministry and adoption services through our Regional Resource Centers across the state of North Carolina. Grandfather Home for Children currently serves over 278 children. Private donations from churches and individuals help to make this ministry possible. Thank you.
